He has been told by Platt's friends that should Roosevelt be minated he would be the likeliest candidate in sight for Lieutenant-Governor. The same statement has been made to James M. E. O'Grady, of Monroe, Speaker of the Assembly, who is ambitious of Congressional honors, but cannot get them if the does not obey the orders of George V. Lidridge. The fact is that Mr. O'Grady controls not a single delegate and cannot be nominated for Congress in his own distinct unless Superintendent Aldridge says so. He cannot turn over one State delegate to help out Mr. Platt in the Platts.

The question was discussed in secret.

It created quite a stir on the Continent when it became known, two years ago, that the Prime von Wrede had appeared in the Munich courts and procured the annulment of his marriage. Many scandals were whispered about the event, not the least interesting of which was that, a few days before the annulment, he had gone through a form of marriage in Geneva, Switzerland, with an America heiress, whose name was not mentioned at that time. Later on it was said that this "American heiress" was none other than Mrs. Beveridge. And, indeed, it was at about the same period that the mother of Kuhne and Ray Reveridge obtained a separation from her husband, the son of former Governor Beveridge, of Ilinois.
